ABOUT CoopIS 2022

This 28th edition of **CoopIS**, Cooperative Information Systems, attempts to span a relevant range of the advanced research and cutting-edge development and application, happening in the general area of ubiquitous distributed computing. **CoopIS 2022**, invites fundamental contributions on principles and applications of distributed and collaborative computing in workflows of networked organizations, enterprises, governments of just communities.

Topic 1: Data, Information, and Knowledge Engineering
Topic 2: Machine-Learning and Knowledge Discovery
Topic 3: Process Analytics and Technology
Topic 4: Semantic Interoperability and Open Standards
Topic 5: Security and Privacy
Topic 6: Internet of Things and Digital Twins
Topic 7: Architecture and Management of ISs
Topic 8: Human Aspects and Social Interaction in ISs
Topic 9: Services and Cloud in Information Systems

In recent years, several innovative technologies have emerged: Cloud Computing, Service Oriented Computing, the Internet of Things, Linked Open Data, Semantic Systems, Collective Awareness Platforms, Block Chain, Processes as a Service, etc, that enable the next generation of CISs. Research and industry developments are needed towards (a) the applicability and use of the innovative technologies, (b) approaches to develop CISs in particular catering towards the multitude of stakeholders involved in the development of cyber-social-physical systems, and (c) associated modelling techniques to express and analyse the different aspects of these systems in coherence.

GENERAL CHAIRS

Hervé Panetto, University of Lorraine, Nancy, France
Walid Gaaloul, IP Paris – Télécom SudParis, France

PROGRAM COMMITTEE CHAIRS

Hajo A. Reijers, Utrecht University, Netherlands.
Paolo Ceravolo, Università degli Studi di Milano, Italy.

CONFERENCE SPONSORING OFFERS
(Prizes excl. 20% VAT)

SILVER PACKAGE – €1.500

- **Prominent logo placement on the Website**
- **Logo placement in the printed conference program**
- **Display of company logo during plenary speeches**
- **Your leaflet in the attendees box**
- **Mentioning of the sponsors in all social media activities**
- **Two registrations to non-author persons of your choice or one registration for one author at the EDOC+CoopIS forum**

GOLD PACKAGE – €2.500

- **SILVER Package +**
- **Your posters on display at the entrance of the conference location**
- **We cover 2 nights accommodation, you cover your travel costs**

PLATINIUM PACKAGE – €4.500

- **GOLD Sponsor +**
- **Your logo on badges**
- **Promo booth at conference facility**
- **2 extra registrations**

CoopIS 2022 and EDOC 2022 are looking for attracting from various kind of professionals, from all continents:

* IT professionals & architects
* Software developers
* Knowledge Management Executives
* Information Systems Managers
* Innovation Executives
* R&D Executives
* Academics from worldwide universities and research centres
